The E-Bike World Championship Returns to Ischgl September 2022

The E-Bike World Championship winners will once again be crowned in Ischgl next September. This is the largest e-bike race in the world, featuring two different track classifications - "Everyone" and "Elite" classes. [Registration is now open](#)

Whether a serious cyclist or riding just for fun, Ischgl invites riders to participate in the first E-Bike World Cup open to the public, known as the E-Bike World Championship for Everyone. Push physical limits or simply enjoy a little competition while riding an e-bike against the backdrop of the breathtaking Tirolean mountains. This event also gives guests and participants the opportunity to try out the latest trends in e-biking and learn more about this fascinating sport. Riders as young as ten years old can take part in the open class E-Bike World Championship for Everyone.

World championship titles to be won:

Elite athletes and occasional cyclists will be able to enter the E-Bike World Championship for Everyone in Ischgl between September 2 and 3, 2022, The rules of the world's largest e-bike race are simple:

"While the fastest biker is crowned world champion in the "Elite" category, participants in the "Everyone" category compete against three riding time limits (gold, silver and bronze). If they fall below one of the three defined time limits, the e-bikers will receive an official Everyone World Championship gold, silver or bronze medal," Dr. Markus Mitterdorfer (E-Bike World Federation) explains the rules.

Elite Men and Ladies: Race on time and become e-bike world champion

The three fastest cyclists will be awarded the official gold, silver, and bronze E-Bike World Championship for Everyone medals. This is a technically demanding course with steep climbs and spectacular single downhill sections for 32 km with 1,025 meters of altitude gain.

Racing Categories for E-Bike World Cup for Everyone

Beat the time and become a world champion along a 24 km long route of the "Everyone" class with a 693 m of altitude gain along wide paths with a fantastic panorama and impressive mountain scenery.

E-bike requirements

Customary e-MTBs with pedal assistance of up to 25 km/h and an engine power of a maximum of 250 W are permitted. The batteries may have a maximum of 800 W. All bikes will be checked before the starting signal. Those who do not have their own e-bike can rent.

A colourful program awaits visitors to Ischgl, spectators and riders during the E-Bike World Championship for Everyone. The E-Bike World Cup for Everyone offers something for all and participants who make up their minds quickly can save real money at the E-Bike World Championship: To enter, excluding e-bike rental, costs 59€/£50 for all those registering before May 1, 2022. E-bikes can be rented on site for a fee. Those who register by August
